**The Booze brothers**, Charlie Booze, Jr. and Brian Booze, have been involved in motorsports for years.

They gained national recognition by accumulating **10 drag racing world championships over the past 10 years**, appearing in publications like Muscle Mustangs and Fast Fords, 5.0 Mustang and Super Fords, Fastest Street Car and NMRA Race Pages.

**Charlie, Jr.** is known for piloting the BBR "Freight Train" Mustang to **3 consecutive NMRA Hot Street Championships**.

**Brian** stepped into the circle track arena a few years ago and now competes in a dirt late model car.

*Their passion for racing has led them to develop the most complete performance shop in the region.*

BBR Performance carries many popular lines of performance products and has a **large stock of inventory items.**

BBR PERFORMANCE STORE

We offer specialized services such as **custom fabrication** and **technical support**, as well as **chassis dynamometer** and **shock dynamometer analysis.**

CUSTOM EXHAUST

BBR Performance offers full-length **custom exhaust** for any type for vehicle. We have a wide range of sizes and system

designs to fit your needs. All popular brands of mufflers are available for you to choose from and most are in stock for immediate installation.

We have the only **chassis dynamometer** in the area to help get that little extra out of every combination. Whether you have a tow vehicle that needs to pull a little harder, a street/strip car that needs more power or a circle track racer that needs run through it's paces before you hit the track, the BBR Performance staff can help.

CHASSIS DYNO

Also, BBR Performance is a **SCT Superchips** authorized dealer, which gives us the ability to create a custom tune for your electronic fuel injection vehicle and burn a chip to fit your application.

SHOCK DYNO

The knowledge and expertise gained from our own racing is what makes **BBR Performance** exceptional.

*We don't just sell parts, we'll help you determine the best part for your application and then work with you to get optimal results.*
